- Ability to work efficiently in fast-paced environments, deliver high-quality results, and communicate effectively with customers and team members • Skilled in handling multiple tasks simultaneously

Work Experience

Copy and Print Associate

Staples Canada-Sherwood Park, AB

October 2023 to August 2025

At Staples, I was a Results-Driven print production professional for close to 2 years. Working here honed my skills in managing high-volume print orders, both in-person and online, within a fast-paced and high-pressure environment. I became proficient in overseeing the production process, ensuring quality control, and meeting tight deadlines.

For a moment I was also the head of the shipping department, where I demonstrated leadership abilities by training new associates, managing shipping status updates, and maintaining an organized and efficient shipping room. Because of this I have a strong attention to detail, excellent communication skills, and a proven ability to work collaboratively within a team.

Support Services

Wyndham Forensics Group-Guelph, ON

October 2023 to January 2024

During the summer of 2023 I was hired by Wyndham Forensics Group to work from home as a support services employee. My role was to assist laboratory staff and management with non-technical activities in support of business, laboratory and administrative operations. At WFG I performed a range of tasks, such as customer service, including sales/marketing, generating business leads and responding to customer inquiries, communications with clients, simple bookkeeping, ordering/procurement of supplies, retrieval of mail, filing and social media updates.

Working for WFG has made me proficient in managing spreadsheets and monitoring information.

Sales Associate

Spencer's-Fredericton, NB

July 2022 to January 2023

Regent Mall Spencer's 1 (833) 543-0751

I worked as a seasonal sales associate at Spencer's, located in the Fredericton regent mall. This job has given me experience in heavy lifting when working on stock, cash handling skills, and lots of customer service experience. Having previously worked at McDonald's, I already had some experience working at a cash register and handling money, but working at Spencer's helped me become even more comfortable with managing a till whilst servicing customers. Working at Spencer's taught me to value customer service and ensuring satisfaction of their visit.

McDonald's Crew Member

McDonald's-Saint John, NB

January 2020 to August 2020

Main Street McDonald's - (506) 634-2708

I was trained working counter service and drive-through. I have gained a lot of experience with customer service and have been complimented on several occasions that I am very polite when speaking to customers.

I've also gained the skills of using a cash register as well as handling money.

Education

Web/Mobile Development and IT (Diploma)

Sundance College-Edmonton, AB

March 2025 to July 2026

Foundational Arts (College certificate)

New Brunswick College of Craft and Design-Fredericton, NB

September 2022 to April 2023
